Capability statement · Property management edition

Electrical & solar solutions for property professionals

Real Estate & Property Management Capability Statement. Dependable electrical maintenance, safety and solar services for Perth properties.

Maintenance first

Repairs, fault finding and safety work for tenanted homes.

Founder-led

Run by its founders, with personal accountability on every job.

• About us

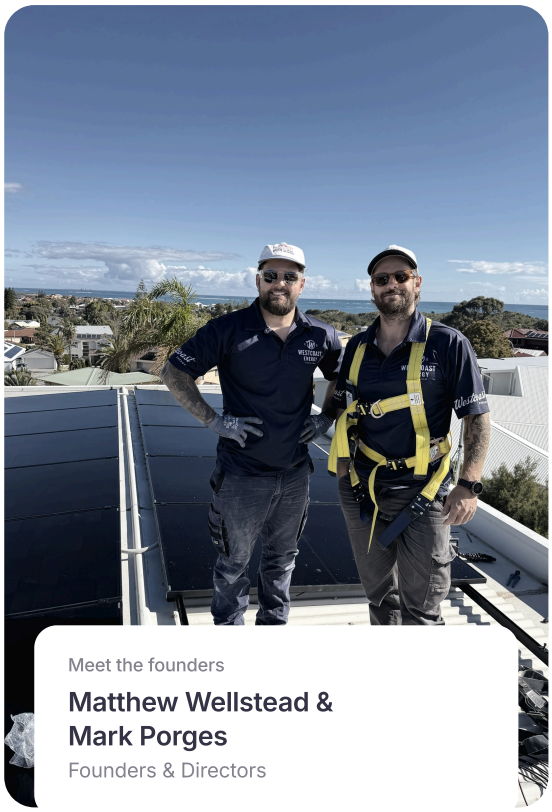

A local business. Built on strong foundations.

Westcoast Energy Electrical & Solar is a Perth-based electrical contracting business founded by long-time friends and electricians Matthew Wellstead and Mark Porges.

Built on a shared commitment to quality workmanship, clear communication and genuine customer service, Westcoast Energy brings a personal approach to professional electrical services.

We understand the demands placed on property managers — from coordinating access with tenants to managing maintenance requests, safety requirements and owner expectations.

Our approach is straightforward: deliver dependable electrical solutions, communicate clearly throughout the process and make managing property maintenance easier.

Meet the founders

What you can expect

Clear Communication

Straightforward updates throughout the job, so you always know where things stand.

Tenant Coordination

Professional communication when arranging access and attendance with occupants.

Transparent Quotations

Clear scopes of work and pricing before proceeding with quoted works.

Safety & Compliance

Electrical work completed with appropriate attention to safety and applicable requirements.

Professional Workmanship

Respectful service, tidy work areas and care for occupied properties.

Straightforward Reporting

Clear information on completed work and any additional issues identified.

How we work with you

From work order to invoice, one clear process.

01 → 02 → 03 → 04

Work Order Received
Request logged and scope confirmed with the property manager.

Access & Scheduling
Access coordinated with tenants and attendance confirmed.

Electrical Works Completed
Carried out safely and tidily, with minimal disruption.

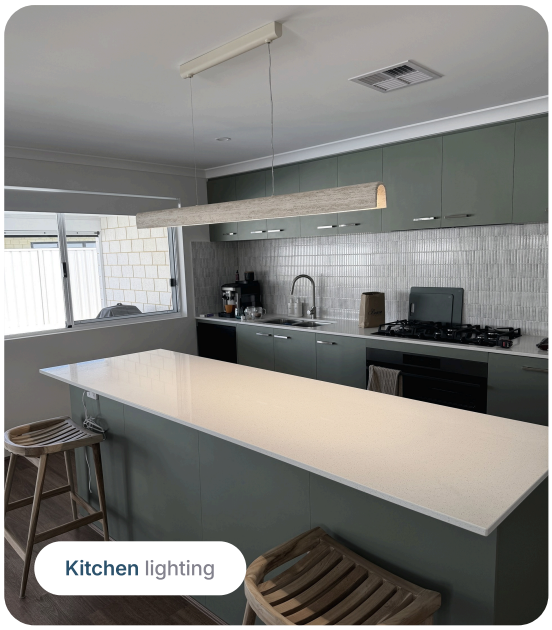

Reporting & Invoicing
Clear job notes, issues flagged and a straightforward invoice.

Our work

Your partner in property maintenance.

From everyday electrical repairs to larger property improvements, Westcoast Energy provides dependable electrical and solar services for Perth property professionals.

We value long-term relationships built on clear communication, quality workmanship and consistent service.
